## **DETAILED ACTION**

### ***Election/Restrictions***

1. This application contains claims directed to the following patentably distinct species of the claimed invention: a first embodiment, shown in figure 1 and page 10 line 7 through page 12 line 24, a second embodiment, shown in figure 14 and page 24 line 1 through page 26 line 9, a third embodiment, shown in figure 15 and page 26 line 11 through page 27 line 26, a fourth embodiment, shown in figure 16 and page 27 line 1 through page 28 line 5, a fifth embodiment, shown in figures 17-20 and page 29 line 7 through page 31 line 17, a sixth embodiment, shown in figure 21 and page 31 line 19 through page 32 line 15, a seventh embodiment, shown in figure 22 and page 32 line 17 through page 33 line 15, and an eighth embodiment, shown in figure 23 and page 33 line 17 through page 34 line 18.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim

Art Unit: 2826

is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

2. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
